ASEAN BOD Network Framework

Project status

No.	Project	Status	Note
1	Strengthen regional collaboration, cooperation to respond NCDs burden in South-East Asia and China	Completed	<p>Report: http://bodnetworking.bodthai.net/resources/final-report/24-burden-of-disease-workshop-proceedings-report/file.html</p> 
2	Establishment of ASEAN Burden of Disease Network to Undertake Workshops on NCDs and Joint Research on Excess Deaths during COVID-19 pandemic	Endorsed by Cluster 1	Proposed timeline 2024-2025

Project description

Project Title: Establishment of ASEAN Burden of Disease Network to Undertake Workshops on NCDs and Joint Research on Excess Deaths during COVID-19 Pandemic

General objective: To strengthen and facilitate the establishment of the ASEAN Burden of Disease Network for continuing activities and collaboration as agreed

Specific objectives:

1. To promote and strengthen networking of ASEAN BOD experts
2. To strengthen capacity of AMS to analyze SDG indicator 3.4.1 on premature mortality due to four NCDs, and to estimate YLD and YLL for top five risk factors including NCDs
3. To identify areas and develop proposals for joint research on excess deaths during the COVID-19 pandemic.
4. To analyse and find solutions for strengthening essential data for BOD (deaths and morbidity)

Areas of cooperation

- Experts from China will be invited to share, train and undertake workshops in areas :
 - Premature mortality due to 4 NCDs;
 - Estimate excess death from COVID-19 pandemic;
 - Burden of disease NCDs and risk factors.
- Participants from the first workshop will be invited to participate and be engaged in this project where possible, to encourage, share, train and undertake workshops on NCDs and Joint Research on Excess Deaths during COVID-19 pandemic.

Concerns for Consideration

- Take note of the progress report
- Collaboration and cooperation activities for the ASEAN BOD network require resources and policy engagement in individual countries
